

2ND EDITION

Build or buy your AI SRE?

Work it out, hands-on.

One Friday in Pune with up to 23 SRE, platform and cloud ops engineers.
Leave with **your own build vs buy call**, plus the numbers to back it.

FRI · 9 OCT 2026

10 AM to 2 PM

SB Road / Shivaji Nagar · Pune

Practitioners only · apply to get in

What you take back to work

WORTH ONE FRIDAY

Your build vs buy verdict

Scored against your own org, ready to defend to leadership.

A priced architecture

Cost estimate at your alert volume, and where token spend runs away.

Guardrails that hold in prod

Model-upgrade checklist plus patterns that stop hallucinations.

One 30-day change

Written down on the day.
We email it back to you on day 30.

WHERE

SB Road
Shivaji Nagar, Pune

SEATS

24 only
2 per company

FEE

₹500
Lunch & chai included

FORMAT

Hands-on
Your own K8s cluster

BRING

A laptop
Just a browser

Six topics on the table

REAL PRODUCTION STORIES, NO SLIDES

01

AI Ops vs copilots vs agents

Which one do you actually need to build?

02

Getting the foundations right

Most ops agents fail in the setup

03

Agents that remember

Solved it last Tuesday. Today, no idea.

04

Giving agents safe hands

Guardrails and blast-radius control

05

Trust but verify

Wrong 5% of the time means switched off

06

Agent economics

When it costs more than the hours it saves

You'll operate it, not watch it

HANDS-ON FROM YOUR OWN SEAT

Live K8s cluster per seat

Memory on ↔ off, live

4 AI models head to head

You red-team the agent

Leading an ops team? Nominate 2.

Send the pair who will own AI in your ops stack. Each applies separately on Luma.

[luma.com/53gmriwh →](https://luma.com/53gmriwh)**Only 24 seats. Two per company.**
